

Inclusive mobility in RENNES

Laurent Senigout
General Manager
Keolis Rennes

Rennes Métropole – an archipelago city

Rennes Métropole has 450,000 inhabitants,
210,000 of them in Rennes

Sparsely populated outside Rennes itself

Travel needs vary between municipalities

Mobility solutions have to be adjusted to
local characteristics and people's needs

2 metro lines, 1 BRT and a bus network

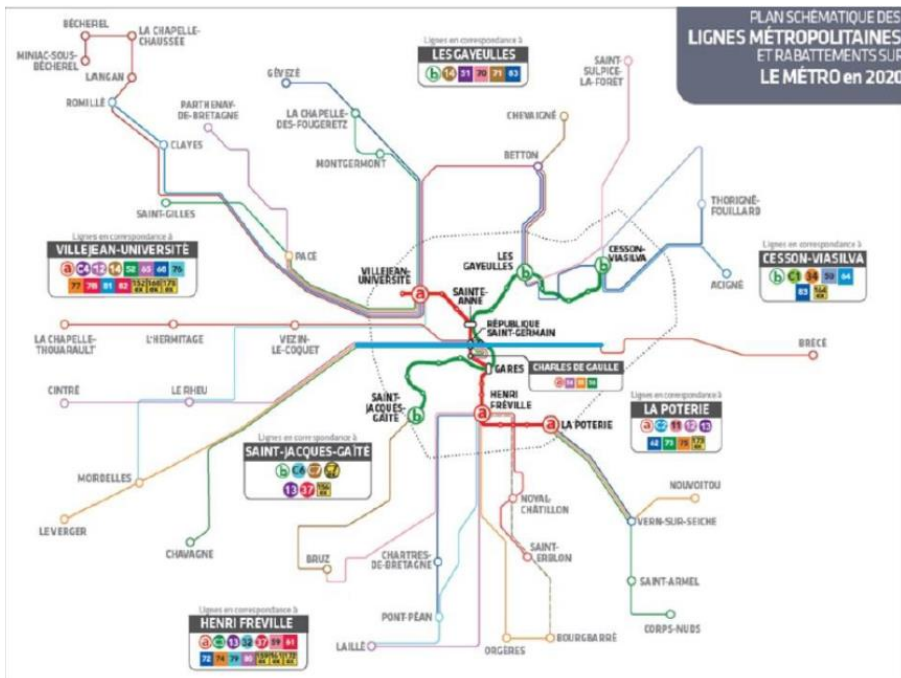

FROM PUBLIC TRANSPORT TO INCLUSIVE MOBILITY FOR ALL

The founding values of mobility for all

- Equitable access to mobility is essential to integrate into the community
- What is good for the most fragile people is good for everyone

MOBILITY SERVICES FOR ALL

Disabled and fragile people

- Real physical accessibility for people with disabilities
 - Fully accessible bus stops and metro stations
 - All buses and metros are accessible with reserved places for people in wheelchairs
 - Sound and visual information devices
 - HANDISTAR a specialized service for disabled people

Sustainable mobility

- An efficient and adapted public transport network
 - At peak times, all cities of the metropolitan area have a bus service with a minimum frequency of 15 minutes
 - Largest cities benefit from express lines to the city center
 - Bus lines to go to the theater or the football stadium
- Car sharing
- Carpooling
- Bike rental systems

Bike traffic + 11 % per year since 2010

- An express bike network under construction

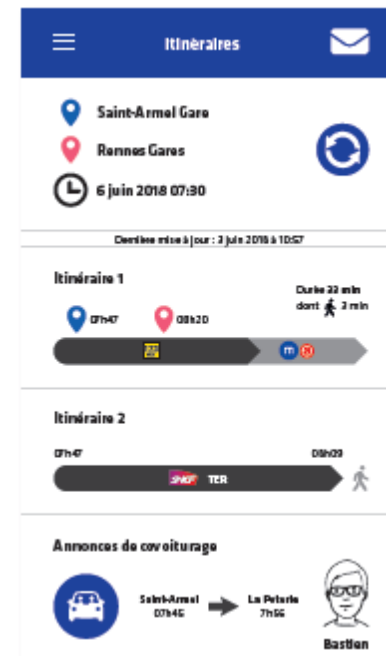

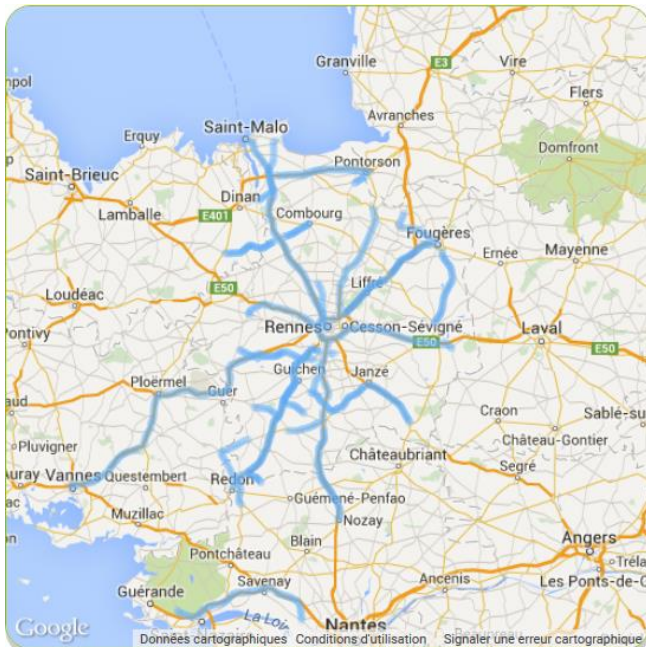

More efficient bikes systems

- A bike sharing system with 54 stations in the inner city
- 1 800 electric bikes for long duration rentals each year
- 200 bikes of different types in short term rentals

Carpooling for all

- Ehop solidaire
 - A network for the transport of people in professional integration
- CovoitStar
 - A carpooling system fully integrated in the public transport network

Pricing of mobility services for all

- social fares helping the 25% less well off people of the city to increase their use of public transport
 - Free pass
 - 85% discount
 - 50% discount
- Discounts on the prices of employee passes for companies that are committed to develop public transport use
- A student pass “all in one” (metro, bus, train, carsharing and bicycle)

KorriGo

KorriGo Services”, a multimodal transport card with public facilities

- Transport facilities
 - Train tickets and bus tickets from other cities networks
- Student facilities
 - Library and restaurant of the university
- Access to the swimming pools of Rennes
- « Carte sortir » which allows discounts for shows, museums...

Thank You!

And see you next time in
Rennes
